For each and every point of interest you'll get: Illustrative photo Address and phone Link to your Google Maps Link to Website (when pertinent) And a quick explanation as to why it deserves a visit. No needless fluff, no boring anthropological lessons! Just everything we love! We don't stuff our travel content with working hours, credit-cards accepted, nearby transportation and user-reviews as it tends to bulk up the writing and are subject to change since the time of publishing. Once you decide the places you want to visit, these infos can easily be found at your hotel concierge, on-line or on Google Maps. No user-review based content! Similarly, our philosophy has been that user-reviewed travel sites are subjective, as they tend to top-rank places that manage their reputation on those sites. So little corner bakeries, unique shops by local artisans, secluded beaches and hidden bars don't show up in those sites as visibly as places that have an on-line marketer or social media specialist. Similarly, we believe the opinion of one well-informed local expert should outweigh the opinion of hundreds of first-time visitors to Dallas. First-time visitors tend to flock to famous tourist attractions, creating a vicious circle, accentuating just the popular places. Our local experts know the entire city, and know what deserves a visit, whether a famous attraction or a quaint corner. Dallas Top 185 Spots is the first travel guide to Dallas you ought to read. It quickly helps you define your short-list of places you want to visit, so you don't have to spend hours reading hundreds of pages of dense writing. All for less than the price of a sandwich.
