Websters paperbacks take advantage of the fact that classics are frequently assigned readings in English courses. By using a running English-to-Manx thesaurus at the bottom of each page, this edition of Gullivers Travels by Jonathan Swift was edited for three audiences. The first includes Manx-speaking students enrolled in an English Language Program (ELP), an English as a Foreign Language (EFL) program, an English as a Second Language Program (ESL), or in a TOEFL? or TOEIC? preparation program. The second audience includes English-speaking students enrolled in bilingual education programs or Manx speakers enrolled in English-speaking schools. The third audience consists of students who are actively building their vocabularies in Manx in order to take foreign service, translation certification, Advanced Placement? (AP?) or similar examinations. By using the Rosetta Edition(when assigned for an English course, the reader can enrich their vocabulary in anticipation of an examination in Manx or English.
