The offer \$20 billion split between four leading scientists on alternative energies to purchase and then squash their research lines, which include the recent discovery of a powerful new energy source capable of replacing mankinds reliance on fossil fuels.

Theres no doubt their discovery is worth ten times that much. But will any one of them live if they refuse? At the same time. the greatest technological advancement in warfare since the creation of the Atomic bomb has been discovered, and is being offered to the highest bidder.
