

How to Make Money While Living in Thailand: The Secrets to Making Big Money with: Ebay, Freelance Writing, Photography, and Elance!

The Ultimate Guide to Making Money While Living in Thailand I will teach you the money making strategies I've been using for years to make money while living in Thailand. You'll learn how to make money from your laptop with minimal effort and time so you'll be able to enjoy life in paradise. You may be asking yourself, What makes this book different from all those other quick rich books out there? This question is easily answered: - This is not a quick rich book, so please get that out of your head! - You will not make one million dollars a year with this book! - You won't even make \$10,000 a month with this book! I don't even promise that you'll make one dollar. Yep, that's right. I promise nothing WHY? Well, it's simple. If all you do is sit on your ass and not follow through with anything, you're better off with a 9-5 job which requires doing nothing beyond the minimum. This book will take some effort on your part not much but some. **WHAT DO I PROMISE?** If you follow the money making strategies with a minimum of two hours a day in the first couple of weeks, you will make money. Most people using these strategies are making anywhere from \$500-\$2,000 a month! The money making strategies held in this book don't require a college degree or any kind of previous experience. This book is divided into 9 parts: Introduction PART 1 The Rich World of Outsourcing PART 2 Ninja Method of Working Without Working PART 3 How to Start an eBay Empire From Thailand PART 4 How to Make Money on the Internet by Taking Pictures PART 5 Make \$500 a Month With iWriter PART 6 Become Financially Free by Blogging PART 7 How to Make \$20 in \$20 Minutes with Fiverr PART 8 Squidoo & Hubpages Make Residual Income Forever PART 9 Bonus Chapter Conclusion MY STORY When I was living in Thailand, I constantly tested myself trying to find the new answers to

this very important question, If I only worked a couple hours a day, how could I make an additional \$1,000 from my laptop? This book answers that question and more! I never had any interest in working a 9 5 job. I did that once and wanted to blow my brains out every morning when my alarm woke me up. So I made a change, I flew to Thailand with nothing but a few items of clothing and a laptop. Im not going to lie, at times it wasnt easy. I had to weed my way through finding different ways on how to make money with a laptop over the internet. The problem is, I really had no idea if the online money making experts were really legitimate or if they were just selling another useless product or service. I wanted to hand pick people I knew who are making money because Ive met them. I sat down with them and deconstructed exactly what they were doing, how they are doing it, what was a waste of time, what isnt a waste of time, what works, and what doesnt work. Once I did this, I tested it If it worked for me, Id recommend it to friends and family. If they made money with the same minimal effort as I, then it was further tested until the process was as close to an exact science as possible. The point is, whether you just want to make an extra thousand dollars a month or you want to leave behind the rat race to live in paradise, this sh*t actually works! See you in paradise! ***SPECIAL BONUS: Anyone who buys this book can email the author with a couple of questions.
