

Beyond Good and Evil

Beyond Good and Evil (German: *Jenseits von Gut und Böse*), subtitled *Prelude to a Philosophy of the Future* (*Vorspiel einer Philosophie der Zukunft*), is a book by the German philosopher Friedrich Nietzsche, first published in 1886. It takes up and expands on the ideas of his previous work, *Thus Spoke Zarathustra*, but approached from a more critical, polemical direction. In *Beyond Good and Evil*, Nietzsche attacks past philosophers for their alleged lack of critical sense and their blind acceptance of Christian premises in their consideration of morality. The work moves into the realm beyond good and evil in the sense of leaving behind the traditional morality which Nietzsche subjects to a destructive critique in favour of what he regards as an affirmative approach that fearlessly confronts the perspectival nature of knowledge and the perilous condition of the modern individual.
