

## Beneath the Neon: Life and Death in the Tunnels of Las Vegas (Travel Holiday Guides)

The catacombs of ancient Rome served as houses of worship for Jews and Christians. The sewers of Paris yielded gold, jewels, and relics of the revolution. A slave trade thrived in underground chambers along Portlands waterfront. Ukrainian Jews found refuge from the Nazis in a system of caves. And thousands of street people lived in the subway tunnels of New York City. What secrets do the Las Vegas storm drains keep? What discoveries wait in the dark? Whats beneath the neon? Armed with a flashlight, tape recorder, and expandable baton, Citylife writer-editor Matthew OBrien explored the black and grey underworld of the Las Vegas flood-control system for more than four years. Beneath the Neon: Life and Death in the Tunnels of Las Vegas chronicles OBriens adventures in subterranean Vegas. He follows the footsteps of a psycho killer. He parties with naked crackheads. And he learns how to make meth, that art is most beautiful where its least expected, and that there are no pots of gold under the neon rainbow.
