The Book of Heroes should never be separated from the Book of Heroines; they are the two parts of that story of courage, service and achievement which is the most interesting and inspiring chapter in the history of human kind in this wonderful world of ours. Whenever and wherever there has appeared a hero, a heroine has almost always worked with or for him; for heroic and noble deeds are rarely done without some kind of cooperation. Now and then, it is true, single acts of daring stand out alone; but, as a rule, the hero gains his end because other men or women stand beside him in times of great peril. William the Silent could not have made his heroic defence of the Low Countries against the armies of Spain if men of heroic temper and women of indomitable courage had not been about him in those terrible years; Washington could not have converted a body of farmers into an organized and disciplined army if he had not been aided by the skill of drill masters like Steuben; nor could Lieutenant Peary make brilliant dashes for the North Pole if other men did not join him in his perilous expeditions. The hero is generally a leader of heroes, as a great general is a leader of soldiers who carry out his plans in hourly jeopardy of limb and life.
