The story is told in epistolary format, as a series of letters, diary entries, and ships log entries, whose narrators are the novels protagonists, and occasionally supplemented with newspaper clippings relating events not directly witnessed. The events portrayed in the novel take place largely in England and Transylvania during the 1890s. The tale begins with Jonathan Harker, a newly qualified English solicitor, visiting Count Dracula in the Carpathian Mountains on the border of Transylvania, Bukovina, and Moldavia, to provide legal support for a real estate transaction overseen by Harkers employer. At first enticed by Draculas gracious manners, Harker soon realizes that he is Draculas prisoner. Wandering the Counts castle against Draculas admonition, Harker encounters three female vampires, called the sisters, from whom he is rescued by Dracula. After the preparations are made, Dracula leaves Transylvania and abandons Harker to the sisters. Harker barely escapes from the castle with his life. Not long afterward, a Russian ship, the Demeter, having weighed anchor at Varna, runs aground on the shores of Whitby. The captains log narrates the gradual disappearance of the entire crew, until the captain alone remained, himself bound to the helm to maintain course. An animal resembling a large dog is seen leaping ashore. The ships cargo is described as silver sand and boxes of mould, or earth, from Transylvania.
