

## The Narrow Gate

Andre Gide is a very famous French author. He was the recipient of the Nobel Prize in Literature in 1947. *La Porte Etroite* was one of his most famous novels and was originally published in 1909, fairly early in Gides career, but he had already published close to two dozen other works by then. There was another English translation published about 70 years ago or so. The title of that translation was *Strait Is the Gate*. I have chosen to use a more literal translation of Gides original title in French. I have never read this translation, by the way, or any portion of it. This is a story of two people who are very deeply in love, but their love does not evolve in any sort of normal manner. The narrator of the story is Jerome who falls in love at an early age with his first cousin Alissa who is two years older than him. As time and their story move on, there are a lot of questions that arise about why their relationship does not evolve in any sort of normal manner as I mentioned above. Discussing them in this description would probably give too much away and ruin the reading experience for many. Suffice it to say that their love for each other is truly very deep, and the answers to most, if not all, open questions can be found in the last chapter which is Alissas diary. This is the seventh classic French novel I have translated, and it is always interesting to get a glimpse of how people lived before automobiles, television, phones, internet, video games, and Netflix. Life has changed a lot during the past century, but what has not changed are human emotions. The emotions felt and expressed by these and other characters in this novel are very clearly understandable by people in todays modern world. They are not outdated. I found it interesting that the story takes place in Normandy in and around Le Havre. The description of the area in the book makes it sound bucolic which I found ironic. It may have been bucolic more than 100 years ago when

Gide wrote the story, but we visited there several years ago intending to stay for a few days. We left early after only one night. The whole area is full of refineries which put off an odd smell. I can say this is one of our least favorite spots in all of France, and we have been practically everywhere. Im glad to hear Le Havre wasnt always like that. By the way, if memory serves we left Le Havre and went to Honfleur which is only about a half hour drive. Honfleur is a superb medieval port village and is one of our favorite spots in France. Anyone visiting Normandy should check it out. I hope readers enjoy this translation of a famous classic French novel by a Nobel Laureate.
