

Into the Heart of Life: Henry Miller at One Hundred

In celebration of the centennial of his birth, *Into the Heart of Life: Henry Miller at One Hundred* gathers a captivating selection of writings from ten of his books. The delights of his prose are many, not the least of which is Miller's comic irony, which as *The London Times* noted, can be as stringent and urgent as Swifts. Frederick Turner has organized the whole to highlight the autobiographical chronology of Miller's life, and along the way places the author squarely where he belongs in the great tradition of American radical individualism, as a child of Emerson, Thoreau, and Whitman. Miller, who joyously declared I am interested like God only in the individual, would have been pleased. The keynotes here are self-liberation and the pleasures of Miller's knotty, cross-grained genius, as Turner describes its defying classification, ultimately unamenable to any vision, any program not [his] own. Or, as Henry Miller himself put it: I am the hero and the book is myself.
