

Ball of Fat (Chinese Edition)

Ball of Fat is Maupassant's most outstanding short story. The story is set in the Franco-Prussian War and tells the stories of a group of travelers and uses a prostitute who shies away from serving her country's enemies as a comparison to ruthlessly expose the shameful faces of French aristocrats, aristocrats and ultramontanes while criticizing the bourgeois Democrats who claim to be patriotic but do nothing patriotic. It vividly summarizes the different attitudes of all classes in France during the Franco-Prussian War. The author's spirit of patriotism and social criticism ideology integrate closely with each and endow this masterpiece with enriched ideological implications.
