

As Easy as A.B.C.

The A.B.C., that semi-elected, semi-nominated body of a few score persons, controls the Planet. Transportation is Civilisation, our motto runs. Theoretically we do what we please, so long as we do not interfere with the traffic and all it implies. Practically, the A.B.C. confirms or annuls all international arrangements, and, to judge from its last report, finds our tolerant, humorous, lazy little Planet only too ready to shift the whole burden of public administration on its shoulders. With the Night Mail. Isn't it almost time that our Planet took some interest in the proceedings of the Aerial Board of Control? One knows that easy communications nowadays, and lack of privacy in the past, have killed all curiosity among mankind, but as the Boards Official Reporter I am bound to tell my tale.
