

Memoirs of a Madman and November (Alma Classics)

Two novellas by the author of *Madame Bovary* offer great insight into his formative years. One of Flaubert's earliest writings, but published only after his death, *Memoirs of a Madman* presents us with a young man as he reflects, alternating between musings on the present and memories of the past on the years that have brought him to madness, recalling the innocence of his boyhood, the first stirrings of sexual awakening, and his abrupt initiation into the adult world. Also included in this volume is another, similarly themed early work, the autobiographical novella *November*, which Nadine Gordimer called an unsurpassed testament of adolescence.
