

Louis Lambert (French Edition)

Louis Lambert est un roman français d'Honoré de Balzac, paru en volume aux éditions Gosselin en 1832, puis en 1836 suivi de Seraphita chez Werdet. Il figure à la même place dans les Etudes philosophiques de l'édition Furne 1845 de la Comédie humaine. Le roman, écrit à la première personne, décrit la rencontre du narrateur avec un jeune homme sourd, étudiant au collège des oratoriens de Vendôme grâce à la protection de Madame de Staël. Absorbé par ses études personnelles, Louis reste à l'écart des autres. Il est souvent l'objet de railleries et de brimades. Parmi ses lectures, on retrouve Swedenborg, dont les théories apparaissent encore dans Seraphita. Le jeune homme est un génie dont les professeurs ne comprennent pas sa soif d'absolu, car ce génie passe pour fou auprès de tous, excepté Pauline, sa femme, qui prend soigneusement note de ses pensées et les réunit dans le Traité des volontés qu'il n'a pas eu le temps d'achever.
