

The Aspern Papers (Annotated)

The Aspern Papers is a book written by Henry James, originally published in The Atlantic Monthly in 1888, with its first book publication later in the same year. One of James best-known and most acclaimed longer tales, The Aspern Papers is based on the letters Percy Bysshe Shelley wrote to Mary Shelleys stepsister, Claire Clairmont, who saved them until she died. Set in Venice, The Aspern Papers demonstrates James ability to generate suspense while never neglecting the development of his characters. This edition has been formatted for your Kindle, with an active table of contents. The work has also been annotated, with additional information about the book and Henry James life, including an overview, plot summary, major themes, critical evaluation, text versions, adaptations, biographical and bibliographical information about the author.
