

The Cricket on the Hearth: and Other Christmas Stories (Dover Thrift Editions)

With the publication of *A Christmas Carol*, Charles Dickens almost single-handedly created the genre of the Christmas story. And while that beloved classic remains among the best known in the field, Dickens also wrote a number of other delightful tales associated with Yuletide. This volume features three of the best. Combining realism with fantasy, and with kindness and affection for the poor a dominant theme, they include the title story, a charming tale of a pleasant and simple home life; *The Holly-Tree*, a lighthearted story of love reclaimed in a quiet country inn; and *The Haunted House*, an entertaining account of a belligerent ghost effect on the lives of those with whom he shares a home. Written with Dickens' familiar flair for characterization, comic incident, and the picturesque, these stories will delight readers with their unusual charms and nostalgic re-creation of Victorian Christmases past.
