

The Decline and Fall of the Roman Empire. Volume 3 (illustrated edition)

In this third of volume, readers will discover the rules of Jovian, Valentinian, Valens, Gratian, Theodosius, Arcadius, Honorius, Eutropius, and Valentinian III; wars in Germany, Britain, Africa, and Persia; the Gothic War in 376; the conversion of Rome; the revolt of the Goths; the numerous sackings of Rome by the Goths and Charles V; revolutions in Gaul and Spain; the life of Saint John Chrysostom; the life of Empress Eudocia; the progress of the Vandals in Africa; and the invasion of the Roman Empire by Attila the Hun. Edward Gibbons Decline and Fall of the Roman Empire compresses thirteen turbulent centuries into an epic narrative shot through with insight, irony and incisive character analysis. Sceptical about Christianity, sympathetic to the barbarian invaders and the Byzantine Empire, constantly aware of how political leaders often achieve the exact opposite of what they intend.
