

The Golden Age

The Golden Age is a collection of reminiscences of childhood, written by Kenneth Grahame and originally published in book form in 1895, in London by The Bodley Head, and in Chicago by Stone & Kimball. (The Prologue and six of the stories had previously appeared in the National Observer, the journal then edited by William Ernest Henley Typical of his culture and his era, Grahame casts his reminiscences in imagery and metaphor rooted in the culture of Ancient Greece; to the children whose impressions are recorded in the book, the adults in their lives are Olympians, while the chapter titled The Argonauts refers to Perseus, Apollo, Psyche, and similar figures of Greek mythology. Grahame's reminiscences, in The Golden Age and in the later Dream Days (1898), were notable for their conception of a world where children are locked in perpetual warfare with the adult Olympians who have wholly forgotten how it feels to be young a theme later explored by J. M. Barrie and other authors.
