

The Green Fairy Book

Andrew Langs Fairy Books also known as Andrew Langs Coloured Fairy Books or Andrew Langs Fairy Books of Many Colors are a series of twelve collections of fairy tales, published between 1889 and 1910. Each volume is distinguished by its own color. In all, 437 tales from a broad range of cultures and countries are presented. Andrew Lang (1844-1912) was a Scots poet, novelist, and literary critic. Although he did not collect the stories himself from the oral tradition, the extent of his sources, who had collected them originally with the notable exception of Madame d'Aulnoy made the collections immensely influential. Lang gave many of the tales their first appearance in English. As acknowledged in the prefaces, although Lang himself made most of the selections, his wife and other translators did a large portion of the translating and retelling of the actual stories.
