

A Journal of the Plague Year: Being Observations or Memorials of the Most Remarkable Occurrences, as Well Public as Private, Which Happened in London During the Last Great Visitation in 1665 (Penguin Classics) (Paperback) - Common

This work follows Daniel Defoes fictional narrator as he traces the devastating progress of the plague through the streets of London. Here we see a city transformed - some of its streets suspiciously empty and some overwhelmingly full of the sounds and smells of human suffering.
