

The Magic Fishbone

There was once a King, and he had a Queen; and he was the manliest of his sex, and she was the loveliest of hers. The King was, in his private profession, Under Government. The Queens father had been a medical man out of town. They had nineteen children, and were always having more. Seventeen of these children took care of the baby; and Alicia, the eldest, took care of them all. Their ages varied from seven years to seven months.
