

The Patchwork Girl of Oz [Illustrated]

Eltanin Publishings Oz Series - #7 ~~ includes ALL the original illustrations (over 130) by John R. Neill, many of them in color, and a new Preface by Oz expert and Eltanin Editor Joseph Nusbaum. ~~ From the Editors Preface: Theres something liberating about second chances, and L. Frank Baum took full advantage of his when he wrote The Patchwork Girl of Oz. Having intended to end the Oz series forever in his prior book, The Emerald City of Oz, Baum discovered a way to resume communications with Oz and continue the series. In Patchwork Girl, Baum employed a similar plot structure that he hadnt used since his first and most popular installment, The Wonderful Wizard of Oz. Here, Baum takes the hapless and orphaned Ojo and sends him on a quest across the Land of Oz, presenting the marvels of that fairyland through the new eyes of a sheltered child. The Patchwork Girl of Oz is the 7th book in the Oz series.
