

The Professor (Annotated)

Includes: - Biography Description: The Professor is Charlotte Brontë's first novel, in which she audaciously inhabits the voice and consciousness of a man, William Crimsworth. Like Jane Eyre he is parentless; like Lucy Snowe in *Villette* he leaves the certainties of England to forge a life in Brussels. But as a man, William has freedom of action, and as a writer Brontë is correspondingly liberated, exploring the relationship between power and sexual desire. William's first person narration reveals his attraction to the dominating directress of the girls school where he teaches, played out in the school's secret garden. Balanced against this is his more temperate relationship with one of his pupils, Frances Henri, in which mastery and submission interplay.
