

The Romance of Lust: A classic Victorian erotic novel

Although I retained sufficient rigidity to keep him in his place, Mrs. B. would not allow any further connection with her, and she made me withdraw, and bade me go to sleep like a good boy, and she would give me a further lesson in the morning. Finding that she was determined on this point, and that she disposed herself to slumber, I felt I was obliged to follow her example, and at last fell fast asleep. It might be about five in the morning, quite light at that time of year, when I awoke, and instead of finding myself, as usual, in my own little bed I found my arms round the person of a charming woman, whose large plump smooth bottom lay in my lap, pressing against my belly and thigh. I found my prick already in a rampant state, and it at once began throbbing and forcing its way between the delicious cheeks of her immense bottom, seeking the delightful sheath it had so enjoyed the previous part of the night. Whether Mrs. B. was asleep or not, I do not know, but am inclined to think she really was so, from the muttered mistake she made in waking. She was probably dreaming, for she mechanically raised her thighs. I pressed my prick stoutly forward against her luxurious body, knowing that the entrance to the temple of pleasure which had so entranced me the night before lay in that direction. I found more difficulties than I expected, but at length began to penetrate, although the orifice appeared much tighter than on the previous evening. Excited by the difficulties of entrance, I clasped the lady firmly round the waist and pushed forcibly and steadily forward. I felt the folds give way to the iron stiffness of my prick, and one-half of it was fairly embedded in my extremely tight sheath. I put down my hand to press my prick a little downwards to facilitate the further entrance; you may imagine my astonishment when on so doing I found myself in the lady's bottom-hole, instead of her cunt. This at

once explained the difficulty of entrance. I was about to withdraw and place it in the proper orifice when a convulsive pressure of the sphincter caused me such exquisite satisfaction by the pressure of the folds on the more sensitive upper half of my prick, which was so delicious, and so much tighter, and more exciting than my previous experience of the cunt that I could not resist the temptation of carrying the experiment to the end. Therefore, thrusting my two fingers into her cunt, I pressed my belly forwards with all my might, and sheathed my prick in her bottom-hole to its full extent. Mrs. B at this awoke, and exclaimed, Good Heavens! Fred, you hurt me cruelly. I wish you would be content with my cunt, I shall be unable to walk tomorrow. You know it always has that effect. It is downright cruel of you but since you are in, stay quiet a little, and then continue to frig me with your fingers, as you know that eventually gives me great pleasure.
