

The Voyage of the Beagle

The Voyage of Beagle is a culminated version of Darwins extensive geological, botanical and biological annotations during his five-year voyage on the Beagle. The basic theme of how life originated and survived is presented here. His scientific observations are mingled with anecdotes about his voyage and people with him that proves an interesting amalgamation. Entertaining and informative! This editon is in 2 volumes. The Second volume isbn is 9781425063436.
