

## The Winters Tale (Signet Classics (Pb))

Why buy our paperbacks? Standard Font size of 10 for all books High Quality Paper Fulfilled by Amazon Expedited shipping 30 Days Money Back Guarantee BEWARE of Low-quality sellers Dont buy cheap paperbacks just to save a few dollars. Most of them use low-quality papers & binding. Their pages fall off easily. Some of them even use very small font size of 6 or less to increase their profit margin. It makes their books completely unreadable. How is this book unique? Unabridged (100% Original content) Font adjustments & biography included Illustrated About The Winters Tale by William Shakespeare The Winters Tale is a play by William Shakespeare, originally published in the First Folio of 1623. Although it was grouped among the comedies, some modern editors have relabelled the play as one of Shakespeares late romances. Some critics consider it to be one of Shakespeares problem plays, because the first three acts are filled with intense psychological drama, while the last two acts are comedic and supply a happy ending. The play has been intermittently popular, revived in productions in various forms and adaptations by some of the leading theatre practitioners in Shakespearean performance history, beginning after a long interval with David Garrick in his adaptation Florizel and Perdita (first performed in 1754 and published in 1756). The Winters Tale was revived again in the 19th century, when the fourth pastoral act was widely popular. In the second half of the 20th century The Winters Tale in its entirety, and drawn largely from the First Folio text, was often performed, with varying degrees of success.
