

The Little City of Hope

Hope is very cheap. There's always plenty of it about. Fortunately for poor men. Good morning. With this mild retort and civil salutation John Henry Overholt rose and went towards the door, quite forgetting to shake hands with Mr. Burnside, though the latter made a motion to do so. Mr. Burnside always gave his hand in a friendly way, even when he had flatly refused to do what people had asked of him. It was cheap; so he gave it. But he was not pleased when they did not take it, for whatever he chose to give seemed of some value to him as soon as it was offered; even his hand. Therefore, when his visitor forgot to take it, out of pure absence of mind, he was offended, and spoke to him sharply before he had time to leave the private office. You need not go away like that, Mr. Overholt, without shaking hands. The visitor stopped and turned back at once. He was thin and rather shabbily dressed. I know many poor men who are fat, and some who dress very well; but this was not that kind of poor man.
